RECYCLING

Recycling is the reprocessing of materials into new products.

Each person in the U.S. generates 4.4 pounds of trash a day!

70% of garbage goes to landfills. Only 30% of garbage is
recycled.

There are approximately 6,000 landfills in the U.S.A. so
remember to recycle.

One way to recycle paper is to copy or print on both sides of
paper.
